

Good Water , **Healthy Shower**

Midea Electric Water Heater
Salute Uno

Full-path Pure Flow, 99.99% Free of Bacteria

Thanks to the Full-Path Bacteria Defense System, you will enjoy an all-around healthy shower in a pure flow. Integrating the Anti-bacterial Copper Valve and the Ag+ Anti-bacterial Water Inlet, together with the ABT Program, this system can gradually improve the water quality and prevent any possible secondary pollutions in the pipeline.

 SGS Certified 99.99%
Bacteria Free

 Full-Path Bacteria
Defense System

 Avoid Secondary
Pollutions

Full-path Bacteria Defense System

Ag+ Anti-bacterial Water Inlet

Release Ag+ ions, to consistently inhibit the growth of bacteria in the water.

ABT Program

Eliminate 99.99% of bacteria in the water with 75°C high temperature, before water touching your skin.

Anti-bacterial Copper Valve

Switch on the anti-bacterial journey of water.

Germ-free Bathing Experience: The Parents' Choice

Offer a healthier shower for giving more tender loving care for kids, their skin more delicate than adults.
Good quality water is your first choice.

Care+ Program: Care You Plus, Stay with You Longer

Enjoy a comfortable shower with just the right temperature. Also, the water heater will serve you longer, thanks to the Care+ Program efficiently guarding against scale buildup for the inner tank and heating element.

Slow Living with Your Family on the Weekend

Freely fill your time and take a shower at will. No more daily routine to tie you, having yourself and your family fully relieved and enjoying every moment at home.

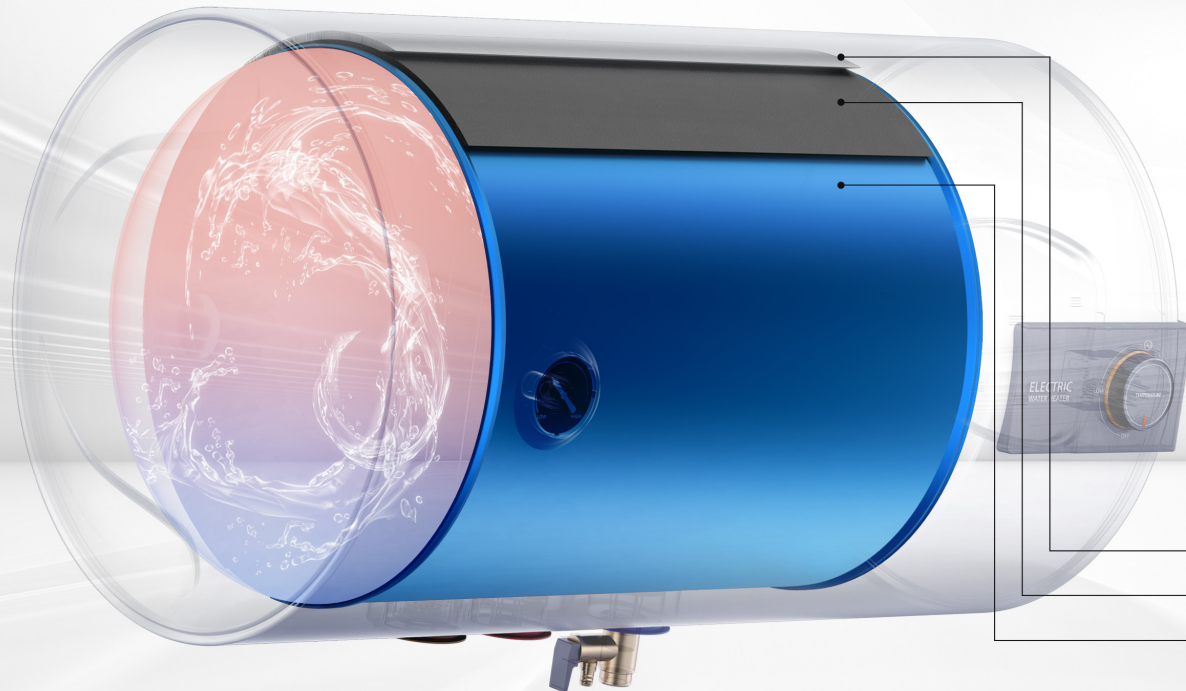

Feel the Moment in Summer

Focus on yourself and refresh your body. A comfortable shower, wiping out all heat and fatigue, lets you have a whale of a time, especially in summer.

Long Live the Tank, with Ti+ SaphirEnamel Attached

The innovative Ti+ SaphirEnamel layer, promotes the water tank to be more durable, by efficiently resisting corrosion & rust and avoiding scale buildup, sustaining your superior use experience.

5 5 Years Tank Warranty

🔥 Anti- Corrosion & Scaling

Ti+ SaphirEnamel Tank with 3-Layer Tech.

- 1. The High-level Decarburization Steel Plate Layer
- 2. The Micro-powder Adhesion Layer
- 3. The 850°C Hi-Temp Sintered Ti+ SaphirEnamel Layer

Ti+ SaphirEnamel Heating Element

Our heating element, made of Ti+ SaphirEnamel coated SUS316L stainless steel, is highly resistant to corrosion and scaling, sustaining the best heating performance.

SUS316L Stainless Steel

Anti- Corrosion & Scaling

Multi-point ShowerSafe

Our Multi-point ShowerSafe System guarantees a comfortable and safe shower experience for you.

Over Heating Protection

Anti-dry Heating Protection

Safety Valve

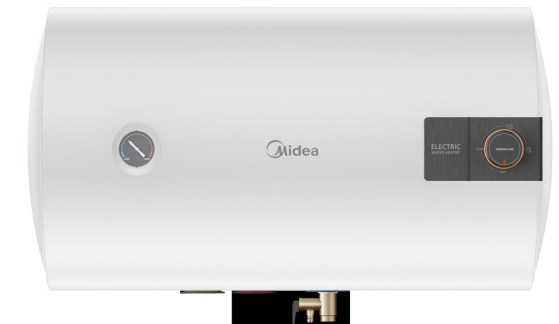

IPX4 Water-proof Body
